Reviewer’s report

Title: Comparison of Intraocular Pressure as Measured by Three Different Non-contact Tonometers and Goldmann Applanation Tonometer for Non-glaucomatous Subjects

Version: 0 Date: 30 May 2017

Reviewer: Marcelo Ayala

Reviewer's report:

Dear authors,

Thanks for the opportunity to revise your manuscript. I found it very interesting and the information presented here is of potential interest for the readers. I have just a small comment: why the authors did not randomized the use of the three NCTs? This must be explained and discuss. I understand that they want use the NCTs before touching the cornea (GAT and ultrasound), but they could randomized the order the machines were used to avoid any kind of systematically error.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
