Reviewer's report

Title: Comparison of femtosecond laser-assisted corneal intrastromal xenotransplantation and the allotransplantation in rhesus monkeys

Version: 0 Date: 30 Jun 2017

Reviewer: Jae Woong Koh

Reviewer's report:

This article described about "Comparison of femtosecond laser-assisted corneal intrastromal xeno-transplantation and the allo-transplantation in rhesus monkeys"

Authors used glycerol-dehydrated corneal lamellae as xenogeneic grafts and small incision femtosecond laser-assisted corneal intrastromal implantation, which brought quite good results.

I recommend additional statistical review and some language corrections before being published.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
