Reviewer's report

Title: Acute clouding of trifocal lens during implantation: a case report

Version: 1 Date: 28 Sep 2017

Reviewer: Passara Jongkhajornpong

Reviewer's report:

The authors added all necessary information that I have commented. There are 2 points that worth for discussion.

1. page 7 line2: the author stated that "The surface of this trifocal IOL is made of hydrophobic acrylic, and the opacification appeared immediately after implantation, which may not cause any chemical, mechanical, or geometric change to the IOL polymer." This is a bit weak assumption and should be supported by stronger evidence. In addition, the author should hypothesize possible mechanism that causes this phenomenon.

2. In conclusion section: "The acute intraoperative clouding of trifocal lens (AT LISA tri 839mp) results from fluctuation of temperature should be noticed especially in cold countries or winter." This sentence is ungrammatical and should be re-arranged. Moreover, they should add clinical application data regarding how to solve this problem that will certainly give benefit to the readers.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
