Reviewer’s report

Title: Dexamethasone implants in paediatric patients with noninfectious intermediate or posterior uveitis: First prospective exploratory case series

Version: 1 Date: 14 Oct 2017

Reviewer: Alejandro Fonollosa Calduch

Reviewer's report:

Thank you for your considerations and corrections. I agree that this study may be a first step or a preliminary work to take into account in order to set up a multicenter study in the future.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
Not relevant to this manuscript

Quality of written English
Please indicate the quality of language in the manuscript:
