Reviewer’s report

Title: Longitudinal observation of subretinal fibrosis in Vogt-Koyanagi-Harada disease

Version: 0 Date: 31 Aug 2017

Reviewer: Ilir Arapi

Reviewer's report:

I wish to thank the associated Editor for the invitation in this review.

I read with interest the paper by Zhao et al., and I found it very well structured.

In the methods section the authors should elucidate the criteria on which they based the diagnosis of SRF. This in order to clarify other epiphenomena which distract attention from the main diagnosis (e.g. Pigmented scars associated with thickening of RPE/BM layer, loss of outer retinal layers; Patches, strands, or irregular areas of pigmentation associated with thickening of RPE/BM layer +/- loss of outer retinal layers ; SRF/scars associated with subretinal tissue surrounded by area of thinning of RPE/ BM layer). The addition of EDI-OCT and Autofluorescence would be helpful in order to evaluate the deepness of fibrosis and the eventual involvement of the RPE.

Do the authors think that the employment of Mycophenolate Mofetil might have altered the clinical course?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?

If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
