Reviewer’s report

Title: Short-term Effects and Safety of an acute increase of intraocular pressure after Intravitreal Bevacizumab injection on Corneal Endothelial Cells

Version: 0 Date: 05 Jul 2017

Reviewer: Maria A. Woodward

Reviewer's report:

the amount of bevacizumab injected should be more clear in the article. was it 0.05ml or 0.1ml?

The article should highlight the short time duration of the IOP spike and that the articles referenced showing damage to the cornea were of longer time duration.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
