Reviewer’s report

Title: Prevalence and Causes of Blindness, Visual Impairment Among Different Ethnical Minority Groups In Xinjiang Uygur Autonomous Region, China

Version: 1 Date: 17 Dec 2017

Reviewer: Shin Goo Park

Reviewer’s report:

This study is meaningful as a study of eye examinations for many people.

However, this study suggests only unadjusted prevalence, so it is necessary to present the adjusted prevalence (such as age, sex…) in table2.

Table 3, which explains the causes of blindness, would require a more elaborate analysis.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
