Reviewer's report
Title: Trachoma in Yunnan province of Southwestern China: findings from Trachoma Rapid Assessment

Version: 1 Date: 27 Feb 2018

Reviewer: Christopher Estopinal

Reviewer's report:
Only comment: page 8 line 17-18 states that the 1987 Yunnan province survey found that 17.17% of participants were blink from trachoma. I do not believe this math is correct (107 participants of 109181 total participants). Otherwise looks great.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
