Reviewer’s report

Title: A Comparison of Pediatric Ocular Injuries Based on Intention in Patients Admitted with Trauma

Version: 0 Date: 06 Oct 2018

Reviewer: Oriel Spierer

Reviewer's report:

Why have you included patients older than 18? We usually refer to people under 18 or 16 as pediatric. What was the median age of patients?

In general the paper is too long. Please shorten the results section by at least 30% and leave what you think is most important. The tables should also be shorten/omitted in part. Also the first paragraph in the discussion is too long. You should briefly summarize the most important findings, in few sentences only.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
