Reviewer’s report

Title: Retinal and Choroidal Thickness in Paediatric Patients with Hypoalbuminaemia Caused by Nephrotic Syndrome

Version: 0 Date: 20 Nov 2018

Reviewer: Taiji Nagaoka

Reviewer's report:

This is an interesting study to examine the retinal and choroidal thickness in patients with hypoalbuminaemia.

It is very important to know that macular choroidal thickness is significantly increased in paediatric patients with hypoalbuminaemia.

The findings obtained from this study is spread out not only nephrotic syndrome but also renal dysfunction, such as diabetic nephropathy.

Are the methods appropriate and well described?  
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?  
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?  
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?  
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
