Reviewer’s report

Title: Retinal and Choroidal Thickness in Paediatric Patients with Hypoalbuminaemia Caused by Nephrotic Syndrome

Version: 0 Date: 09 Dec 2018

Reviewer: C Kucukerdonmez

Reviewer's report:

This is a well-written study which gives information about the pathogenesis of subretinal fluid accumulation and edema in patients with hypoalbuminemia. The data of the study will be very useful in future clinical studies, and also could be further used in studies with larger sample size. I congratulate the authors for this nice work.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
