Title: Safety and efficacy of wiping lid margins with lid hygiene shampoo using the “Eye Brush”, a novel lid hygiene item, in healthy subjects: A pilot study

Version: 0 Date: 10 Nov 2018

Reviewer: Melanie Eberle

Reviewer's report:

Very nice pilot study and a very nice treatment concept. Due to the limited number of patients, the conclusion is unfortunately also limited. A larger study is necessary to confirm the results.

Although the delivered results are limited, it is worthwhile to publish this work due to the original approach.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
