Title: Convergence Insufficiency and Accommodative Insufficiency in Children

Version: 0 Date: 04 Nov 2018

Reviewer: Fiona Rowe

Reviewer's report:

Please correct typographical and grammatical errors in the abstract and main text as indicated in the attached file.

Results section; the paper would benefit from additional subgroup analysis to compare general rural versus urban groups. There is mention of this in relation to the published literature in the Discussion section so it would be useful to provide information from the current study data to enable further comparison.

Table 3 is cited before table 2 in the results - please renumber.

Please ensure consistency with the use of abbreviations and formatting of references within the main text.

Please replace the term phoria with heterophoria throughout the main text - for accuracy.

In table 3, suggest keeping all the USA studies together for comparison so move Menjivar study up 2 rows.

In figure 1, please improve the clarity as the text is blurred. It would be helpful to add in the numbers of cases included/excluded at each stage.

For figures 2 and 3, please provide a brief explanation of the data. Figures should be relatively self-explanatory without recourse to the main text.
