Reviewer's report:

I would like to thank the Editor in Chief for the invitation in this review.

I think this paper is a very interesting one, and I have only a few comments to the authors:

1. In my opinion, the present paper shows a good approach to small or punctual perforations. Do you think this technique could be used in more severe cases?

2. It would have been interesting to check endothelial cell count before and after the procedure.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
