Reviewer’s report

Title: Epidemiology and Clinical Features of Viral Anterior Uveitis in Southern Taiwan—Diagnosis with Polymerase Chain Reaction

Version: 1 Date: 09 Mar 2019

Reviewer: Alejandro Fonollosa Calduch

Reviewer's report:

This is an interesting study about the clinical characteristics of viral anterior uveitis in Taiwan. I have a few comments:

1. In the results section, from line 32 till the end of the section: it is hard to understand the meaning of what the authors are trying to explain. They have found "differences between patients with normal lens vs pseudophakic" for example. Differences in what? I suspect they have observed more CMV cases in pseudophakic patients... if this is so it should be better expressed.

2. The authors should discuss the possible etiologies for the PCR negative cases

3. It would be interesting to describe clinical differences between CMV and HSV and VZV cases

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
