Reviewer’s report

Title: Granular cell tumor presenting as an intraocular mass: a case report

Version: 0 Date: 16 Jan 2019

Reviewer: Sentaro Kusuhara

Reviewer's report:

The manuscript (#BOPH-D-18-00910, by Yang J, et al.) is a case report presenting a rare case of intraocular granular cell tumor (GCT). If the tumor is GCT and is originated from intraocular cell, it is worth being reported. However, incomplete data presentation hampers my judgment. Accordingly, this case report, albeit potentially quite significant, is premature to be published in BMC Ophthalmology. The major concerns regarding the manuscript are listed below. In this review, I omitted pointing out many minor problems including typos, grammatical mistakes, and improper scientific writing.

1) Although the authors performed IHC of the extracted tumor, only a pustule ovoid body of Milian was shown in Figure. Please provide IHC images as well as the photo of the extracted tumor.

2) Preoperative CT scans and postoperative fundus photographs should be also given.

3) I think manuscript should be amended by professional academic English editing, otherwise I could not precisely understand what the authors want to convey in it.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript

Quality of written English
Please indicate the quality of language in the manuscript:

Not suitable for publication unless extensively edited

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
