Reviewer's report

Title: Choroidal Structural Changes Correlate with Severity of Diabetic Retinopathy in Diabetes Mellitus

Version: 3 Date: 02 Jul 2019

Reviewer: Jee Taek Kim

Reviewer's report:

In earlier version of revision, you described that "42 patients received laser treatment".
And you described treatment history of the patients, as follows: "42 DM patients received fundus laser photocoagulation treatment (22 NPDR eyes and 20 PDR eyes)" in line 41-44, Page 6, according to other reviewer's advice.

This sentence and revised Table 1. can cause mis-understanding to me and other readers, as likely as the included patients were not treatment-naïve state.

In general, treatment history of the subjects are previous history before the inclusion.

Thus, you should change the sentence appropriately and table 1.

The patients included in table 4 or 5 were not shown in table 1. Please edit appropriately.
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
