Response to editor’s comments

>> 1 Please provide email addresses for all the authors on the title page.
corrected

>> 2 Please remove the Competing Interests section from the title page as this should be included in Declarations section at the end of the manuscript.
moved to the declarations section

>> 3 Abstract: the Abstract should not exceed 350 words and should be structured with a background, main body of the abstract and short conclusion.
the abstract does not exceed 350 words. Sections changed accordingly

>> 4 Text: the main text should be structured to Background, Main text, and Conclusions. For the main text, it may also be broken into subsections with short, informative headings. I would suggest you to move the current Methods, Results and Discussion as the subsections of the main text.
changed

>> 5 Upon resubmission, please make sure that your manuscript contains the following seven sections under the heading 'Declarations' at the end of the main text:

(1) Ethics approval and consent to participate
(2) Consent for publication
Please state Not Applicable as your manuscript doesn't contain any individual identifying data
(3) Availability of data and material
Please include a section 'Availability of data and materials' in Declarations. Availability of Data and Materials refers to the raw data-set upon which the summary statistics in the manuscript are based. For your information: Here are some examples of Availability of Data and Materials statements that you may choose to adapt if you wish:

• The datasets generated and analysed during the current study are available in the [NAME] repository, [PERSISTENT WEB LINK TO DATASETS]
• The datasets generated and analysed during the current study are available from the corresponding author on reasonable request.
• The datasets generated and analysed during the current study are not publicly available due [REASON WHY DATA ARE NOT PUBLIC] but are available from the corresponding author on reasonable request.
• The datasets generated and analysed during the current study are not publicly available due [REASON WHY DATA ARE NOT PUBLIC].

(4) Competing interests
(5) Funding

All sources of funding for the research reported should be declared. The role of the funding body in the design of the study and collection, analysis, and interpretation of data and in writing the manuscript should be declared.

(6) Authors' contributions

Please list all the authors with the initials in this section. Please also ensure that all authors have read and approved the final version and add a statement confirming this.

For example: ‘AB carried out the molecular genetic studies, participated in the sequence alignment and drafted the manuscript. BC participated in the design of the study, carried out immunoassays and performed the statistical analysis. CD conceived of the study, and participated in its design and coordination. All authors read and approved the final manuscript.

(7) Acknowledgements

Please only use this section to acknowledge anyone who contributed towards the article who does not meet the criteria for authorship including anyone who provided professional writing services or materials. Authors should obtain permission to acknowledge from all those mentioned in the Acknowledgements section. If no acknowledgements are necessary then please state 'None'.

You may want to state NA for some of the above sections, but the section heading must be present.
