Reviewer’s report

Title: Clinical outcomes after mix-and-match implantation of diffractive multifocal intraocular lenses with +2.75 and +4.00 diopter add powers

Version: 0 Date: 05 Mar 2020

Reviewer: Hakan Kaymak

Reviewer's report:

Dear author,

your paper is on the clinical outcomes after mix-and-match implantation of mIOL:

- As it might be required by the journal, please add a control group to your results. This control group can be the results of visual acuity testing of patients after bilateral monofocal IOL implantation.
- Is there literature available for your first written paragraph in the "Background" chapter?
- Please use a log scaling for the contrast sensitivity chart and be more precise in the interpretation of your results for contrast sensitivity. The shown charts cannot be compared with common data.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
