Reviewer's report

Title: Clinical outcomes of children with acute asthma and pneumonia in Mulago hospital, Uganda: a prospective study

Version: 2 Date: 22 June 2014

Reviewer: Salvatore Barberi

Reviewer's report:

The study is well conducted and the authors described data from a very large casistic. The question posed by the authors is well defined.

The manuscript is adhered to the relevant standards for reporting.

The discussion and conclusion are well balanced.

The writing is acceptable.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
