Reviewer's report

Title: Evaluating severity of neonatal jaundice using a modified bilirubin-induced neurologic dysfunction (BIND-M) score in a resource-limited setting

Version: 3 Date: 13 December 2014

Reviewer: Bede C Ibe

Reviewer's report:

The authors should review the tables to make them clearer.
The modified BIND score should be produced as different from what is shown in Appendix 2 that showed the score columns for consultants and residents.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:
