Reviewer's report

Title: Socio-economic and demographic risk factors on child drowning in Bangladesh

Version: 3 Date: 27 June 2014

Reviewer: Gustavo Fraga

Reviewer's report:

2. Methods: it is not clear how the interviewers were selected. There is nothing about near drowning in this topic.
3. Results: lines 148-150 need to be deleted from results, transfer to discussion. The authors need to selected tables or figures to the same information.
4. Discussion: can be improved comparing the results with literature from different countries
5. Conclusions: don’t make any conclusion that is not supported by the results in relation to the aim
6. Need minor English editing

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
