Reviewer's report

Title: Incidence and serotype distribution of invasive group B streptococcal disease in young infants: a multi-country observational study

Version: 6 Date: 22 January 2015

Reviewer: kirsty le doare

Reviewer's report:

All major concerns have been addressed. This is a very interesting article. I am not sure what table 4 adds to the overall data still but thank you for the clarification.

There are two minor typos:
"ascertain this impact of this" should be "ascertain the impact of this" - line 259
on line 278 there is a redundant "." before GBS.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
