Reviewer's report

Title: Recurrent Streptococcus Pneumoniae 23F Meningitis due to Cerebrospinal Fluid Leakage from the Ear Canal - Report of One Case

Version: 5 Date: 14 August 2015

Reviewer: Inge Axelsson

Reviewer's report:

Please number your comments and divide them into

- Major Compulsory Revisions
  The author must respond to these before a decision on publication can be reached. For example, additional necessary experiments or controls, statistical mistakes, errors in interpretation.

- Minor Essential Revisions
  The author can be trusted to make these. For example, missing labels on figures, the wrong use of a term, spelling mistakes.

*****"It would be interesting to know the vaccination program in the population": please, note that vaccine for Strp. Pneumonia is not included in the program.

*****Page 12, line 9. "which can be misdiagnosed even CT is performed without exact": this is unchanged and still not easy to understand. Please, explain in the text in about the same wording as in your letter to me.

- Discretionary Revisions
  These are recommendations for improvement which the author can choose to ignore. For example clarifications, data that would be useful but not essential.

Please note that both the comments entered here and answers to the questions below constitute the report, bearing your name, that will be forwarded to the authors and published on the site if the article is accepted.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
Declaration of competing interests:
