**Title:** Transient Neonatal Diabetes Mellitus followed by recurrent asymptomatic hypoglycaemia: a case report

**Version:** 2  **Date:** 29 June 2015

**Reviewer:** Oddmund Sovik

**Reviewer's report:**

"This is a case report of neonatal diabetes mellitus followed by spontaneous hypoglycemia. The observations are of considerable interest. The study is carefully done and well presented. I have no objections to this report being published in Your Journal".
