Reviewer's report

Title: Transient Neonatal Diabetes Mellitus followed by recurrent asymptomatic hypoglycaemia: a case report

Version: 2 Date: 15 July 2015

Reviewer: Francesco Cadario

Reviewer's report:

I suggest a better definition in Case discussion because it has not been executed methylation test in paternal blood derived DNA, with the following considerations hypoglycemia pre feed, because it does not easily understand a reader not expert in Medical Genetics.

Level of interest: An article of importance in its field

Quality of written English: Acceptable
