Reviewer's report

Title: Newborn screening for congenital adrenal hyperplasia in Tokyo, Japan from 1989 to 2013: epidemiology and efficiency of the screening: a retrospective population-based study

Version: 5 Date: 2 May 2015

Reviewer: Ivani Silva

Reviewer's report:

- Minor Essential Revisions
  The author can be trusted to make these. For example, missing labels on figures, the wrong use of a term, spelling mistakes.
  Comments 3, 5 and 6

- Discretionary Revisions
  These are recommendations for improvement which the author can choose to ignore. For example clarifications, data that would be useful but not essential.
  Comment 1

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
