Reviewer's report

Title: The Dunnigan-type of familial partial lipodystrophy in the adolescent girl - a case report

Version: 2 Date: 2 September 2015

Reviewer: Vinaya Simha

Reviewer's report:

This is a well, written, comprehensive case report highlighting the characteristic presentations of FPLD. The authors should, however, point out what is unique in this particular case which is worth publishing. They should provide a reference for the quoted prevalence of 1 in 15 million.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
