Reviewer’s report

Title: Health-related quality of life and pain in children and adolescents - a school survey

Version: 1 Date: 21 May 2017

Reviewer: Kotsedi Monyeki

Reviewer’s report:

Comment 1 (on introduction): introduction is still not focused on objectives of the study; the relationship between the health quality of life and pain was not mentioned, pain and the quality of life were mentioned separately. I suggest that the author show the link between the two.

Comment 2 (in text referencing): Referencing is still not correct, it was not done sequentially on introduction as the Vancouver format requires, for example, reference 40 on line 100 should not be there.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
Please indicate the quality of language in the manuscript:
