Reviewer’s report

Title: Determinants of stunting and severe stunting among Burundian children aged 6-23 months: evidence from a national cross-sectional household survey, 2014.

Version: 1 Date: 20 Apr 2017

Reviewer: M Azage

Reviewer's report:

Comments on Abstract in result section: 95% CI is enough so it is better to remove p-value
Table 1, 2, 3. absolute numbers must be placed before percentage with confidence interval

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review

Quality of written English
