Reviewer’s report

Title: The influence of socioeconomic factors on choice of infant male circumcision provider in rural Ghana; a community level population based study

Version: 0 Date: 09 Apr 2017

Reviewer: Charles Hongoro

Reviewer's report:
Interesting paper worthy of publications. It be useful in a follow up study to find out why there seem to be a perverse relationship between level of income and likelihood to pay for circumcision. Why are richer groups more likely to get free circumcision and even pay less in-kind?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
