Reviewer’s report

Title: The Role of Endoscopic Ultrasound in Children with Pancreatobiliary and Gastrointestinal Disorders: A Single Center Series and Review of the Literature

Version: 0 Date: 30 May 2017

Reviewer: Bradley Barth

Reviewer's report:

Paper is excellent. There are several articles describing feasibility of EUS in children, but not enough. Particularly interesting to me are the cases involving diagnosis of insulinoma and NET.

Also, the lower tract EUS is more novel.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
