Reviewer’s report

**Title:** NEOnatal Central-venous Line Observational study on Thrombosis (NEOCLOT): evaluation of a national guideline on management of neonatal catheter-related thrombosis

**Version:** 2 **Date:** 30 Jul 2017

**Reviewer:** Sarah H. O'Brien

**Reviewer's report:**

The authors have adequately responded to all of the reviewers' comments and concerns. I have no additional concerns. This is a well written manuscript describing an ongoing first-of-its-kind study that will provide important information regarding the optimal care of thrombosis in the neonatal population.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:
