Reviewer’s report

Title: Developmental outcomes of preterm infants with bronchopulmonary dysplasia-associated pulmonary hypertension at 18-24 months of corrected age

Version: 0 Date: 23 Oct 2018

Reviewer: Folasade Kehinde

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

The study although retrospective is well designed. Appropriate controls were used. Strengths include the fact that the gold standard for neurodevelopmental assessment the Bayley III scales was used. Appropriate statistical methods were utilized. References are up to date. The study contributes to our understanding of risk factors for poor neurodevelopmental outcomes.

However line 101 in the manuscript has a typographical error - should read Papile's classification not Palile.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
Quality of written English
Please indicate the quality of language in the manuscript:
