Reviewer’s report

Title: Myocardial Oedema in an 8-year-old Chinese Boy with Idiopathic Systemic Capillary Leak Syndrome

Version: 2 Date: 17 Oct 2018

Reviewer: Steve Leung

Reviewer's report:

Authors addressed all my concerns related to previous review.

Authors included a comment that there have been approximately 271 cases reported (approximately 250 adult, 21 pediatrics). There was a recent review (Bozzini M et al, European Journal of Pediatrics 2018;177:1149-54) that mentioned approximately 500 patients have been reported.

Would recommend review of the article, and address discrepancy.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
