Title: Nonsynostotic plagiocephaly: a child health care intervention in Skaraborg County in Sweden

Version: 3 Date: 19 Dec 2018

Reviewer: Deborah A. McNeil

Reviewer's report:

The changes made by the authors have improved the clarity of the manuscript. I just have three comments.

1. I continue to disagree with the authors of identifying a result as different either lower or higher if the statistical results do not corroborate the statement even if there is clinical relevance.
2. I think there needs to be mention in the limitations that there was no validation of the scoring system.
3. The recruitment section is improved but I would have liked to have known the number of eligible infants not just that all those born were eligible
