Reviewer’s report

Title: Predictive value of aspartate aminotransferase-to-platelet ratio index for parenteral nutrition-associated cholestasis in infants with extremely low birth weight

Version: 0 Date: 09 Feb 2019

Reviewer: Michela Perrone

Reviewer's report:

In their paper, Hwang and colleagues explain the predictive role of AST-to-platelet ratio for parenteral nutrition associated cholestasis in ELBW infants.

I think that this index could be useful in clinical practice, because there consider values of AST and platelets that are routinely evaluated in a neonatal intensive care unit.

The importance of this index is also linked to the difficult in evaluating cholestasis associated to parenteral nutrition in this patients.

Are the methods appropriate and well described? 
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English

Please indicate the quality of language in the manuscript:

Needs some language corrections before being published
**Declaration of competing interests**

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
