Reviewer’s report

Title: Successful conservative treatment of intestinal perforation in VLBW and ELBW neonates: a single centre case series and review of the literature

Version: 1 Date: 13 Apr 2019

Reviewer: Akihiro Yoneda

Reviewer's report:

This paper has been properly corrected. The information of this paper is interesting. But the study itself’s a retrospective case series. In my opinion, it is almost worth publishing, if the authors well state the limitations of this study.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
