Review report

It is very good study, the study demonstrated an important public health issues.

Comments and suggestions

1. Title should include study location

2. Line 34, study design must be written beginning of the methods of the study. The study design was written in the abstract line, it should also mention in the main test of the manuscript

3. Line 51, three major ethnicities in Singapore Chinese Malays and Indian, the question is what language did you use for data collection?

4. It was mentioned three different ethnic group was involved in the study but there is no information was given proportion of Chinese Malay and Indian

5. I was wondering if the researchers tested is there any differences on TV viewing duration among the three ethnic groups.
