Reviewer’s report

Title: Significant predictive factors of the severity and outcomes of the first attack of acute angioedema in children

Version: 0 Date: 29 Sep 2019

Reviewer: Inmaculada Martinez-Saguer

Reviewer's report:

The manuscript titled "Significant predictive factors of the severity and Outcomes of the first attack of acute angioedema in Children" is well written and interesting

Is there data on the course of the patients. Correlates the first angioedema with a severe course and correlates the age at the first angioedema with a severe course. Please discuss.

According to the results of this retrospective study, a recommendation for treatment should be made at the end

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
