Title: Nutrient Intakes and Sources of Fiber Among Children with Low and High Dietary Fiber Intake: The 2016 Feeding Infants and Toddlers Study (FITS), a Cross-sectional Survey

Version: 1 Date: 24 Sep 2019

Reviewer: Kim V. E. Braun

Reviewer's report:

The authors have addressed all my comments well and provided additional analyses and elaboration where needed. There is just one more comment regarding table 1 that requires additional clarification. First of all, how were weighted estimates calculated? There is a reference (30) provided in the method section on weighting methodology. However, I believe the reader would benefit from at least a brief description of the methods used, which would make the results understandable from solely reading this manuscript. Second, why are weighted estimates used instead of absolute numbers? Since it is a descriptive table, I believe it would be more appropriate to provide absolute numbers and percentages of the population characteristics in the highest and lowest quartile of fiber intake.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
