Reviewer’s report

Title: Women’s knowledge towards neonatal danger signs and its associated factors in Ethiopia: a systematic review and meta-analysis

Version: 1 Date: 24 Jan 2020

Reviewer: elizabeh kibaru

Reviewer's report:

Please include all comments for the authors in this box rather than uploading your report as an attachment. Please only upload as attachments annotated versions of manuscripts, graphs, supporting materials or other aspects of your report which cannot be included in a text format.

Please overwrite this text when adding your comments to the authors.
i still think you need to be specific on which mothers you are describing are the antenatal mothers ,postnatal or any woman?this should be clear from the title
I am still have issues with how you describe good knowledge?was it one two or three danger signs positively mentioned?
Please recheck the grammar
All the best

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Unable to assess

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
