Reviewer's report

Title: Cerebral disorders in the first 7 years of life in children born post-term: A cohort study

Version: 1 Date: 03 Dec 2019

Reviewer: Mark Adams

Reviewer's report:

Thank you for the revision. Most of my concerns have been resolved.

Minor concerns remaining:

1. I do believe it would be important to add information in the methods section regarding how representative the source population is of the target population. I agree with the author that it is sufficient, based on his response to my previous comment, but his comments should be added to the manuscript.

2. Results: An odds ratio with 95% confidence interval starting at 1 (e.g. 1.00 to 1.70) is not statistically significant as it includes the reference value (1). I would thus scratch the word "significantly" where there is an overlap in confidence interval and 1. In essence this is hear-splitting as both a CI of 0.98 to X and one which is 1.02 to X describe a very similar difference, but the terms should be used correctly.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes
Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

none
