Reviewer’s report

Title: Spinal epidural hematoma without significant trauma in children: Two case reports and review of the literature

Version: 0 Date: 26 Jun 2019

Reviewer: Jonathan Roth

Reviewer's report:

The paper relates to a rare but important pathology. Increase in awareness of these pathologies may reduce morbidity associated with spontaneous spine epidural hematomas. The paper is well written and gives a nice overview on this rare pathology. I recommend to accept as is.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

Not relevant to this manuscript
