Reviewer's report:

Dear Editor,

I reviewed the manuscript titled "A girl with protein-losing enteropathy during ketogenic diet: a case report". I think this case report can be accepted after major revision.

My comments are listed:

1. There are a lot of typographical and grammatical errors in the manuscript. They should be corrected

2. Case section is too long. It should be shortened

3. Discussion: Discussion should be shortened and The Authors should discuss the patient's original findings in this section. In addition to this, main case reports related with PLE, pathogenesis of PLE and treatment modalities of PLE should be discussed in separate paragraphs. A conclusion paragraph should be added to the end of the discussion section.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
