Reviewer's report:

Dear Authors,

The first draft of manuscript is very good. I provided a pdf version with comments and suggestions, some details that you should interpret as possible suggestions.

All sections are clearly explained, and the literature reported is enough.

In my opinion, you should adopt the reported speech (indirect speech) and not use terms on first person of singular or plural (i.e. We, our). Another suggestion is to not use time as limitation, the main limitation is the obtained data from surveys.

Discretionary revision is my recommendation. Please, interpret them in a flexible way in order to improve the well written manuscript.

Great work.

Best wishes.
