Reviewer’s report

Title: Anhedonia in disorganized schizotypy

Version: 3 Date: 3 July 2014

Reviewer: Eduardo Fonseca Pedrero

Reviewer’s report:

Please, add Cohen’s d values for effect size. Please, TEPS in an indirect measure of Anhedonia. TEPS measure hedonic capacity. Please, in the abstract the results and discussion section is more or less the same. If is possible change a little bit.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
