Reviewer’s report

Title: The relationship between glucocorticoid receptor polymorphisms, stressful life events, social support, and post-traumatic stress disorder

Version: 2 Date: 16 June 2014

Reviewer: Phillip R Zoladz

Reviewer’s report:

The authors provide evidence for connections between GR polymorphisms, trauma, social support and PTSD. This paper exhibits sound methodology and results and provides new information to the field.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
