Title: Effects of mental health self-efficacy on outcomes of a mobile phone and web intervention for mild-to-moderate depression, anxiety and stress: Secondary analysis of a randomised controlled trial

Version: 2 Date: 22 August 2014

Reviewer: Anne Kleinsasser

Reviewer’s report:

In their revisions to this paper, the authors have taken a thoughtful approach to addressing the reviewers’ suggested revisions. The authors have adequately addressed my comments and appear to have made satisfactory changes in response to the other reviewer’s comments as well. Given these changes and explanations put forth by the authors, I do not believe additional revisions are necessary.
