Reviewer's report

Title: Dynamic relationship between multiple START assessments and violent incidents over time: a prospective cohort study

Version: 4  Date: 24 September 2014

Reviewer: Jay P Singh

Reviewer's report:

The authors are strongly recommended to consider adding additional information to their manuscript to satisfy the Risk Assessment Guidelines for the Evaluation of Efficacy (RAGEE) Statement, which provides the reporting guidance for this field: http://www.ncbi.nlm.nih.gov/pubmed/25133921

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
